

USE THE BYE-ELECTION TO SEND
A LOUD & CLEAR MESSAGE:
**NO MORE
LOCKDOWNS!**

Dear resident

Lockdowns and restrictions on our natural freedoms have done huge damage to our health, our communities and our economy. Small business have been devastated, unemployment and mental health issues are sky rocketing while waiting lists are getting longer and longer. Lockdowns have pushed Ireland's national debt up to a massive €239 billion (worse than during the banking crisis) and will mean more tax increases will be needed to pay for this massive over-reaction to COVID.

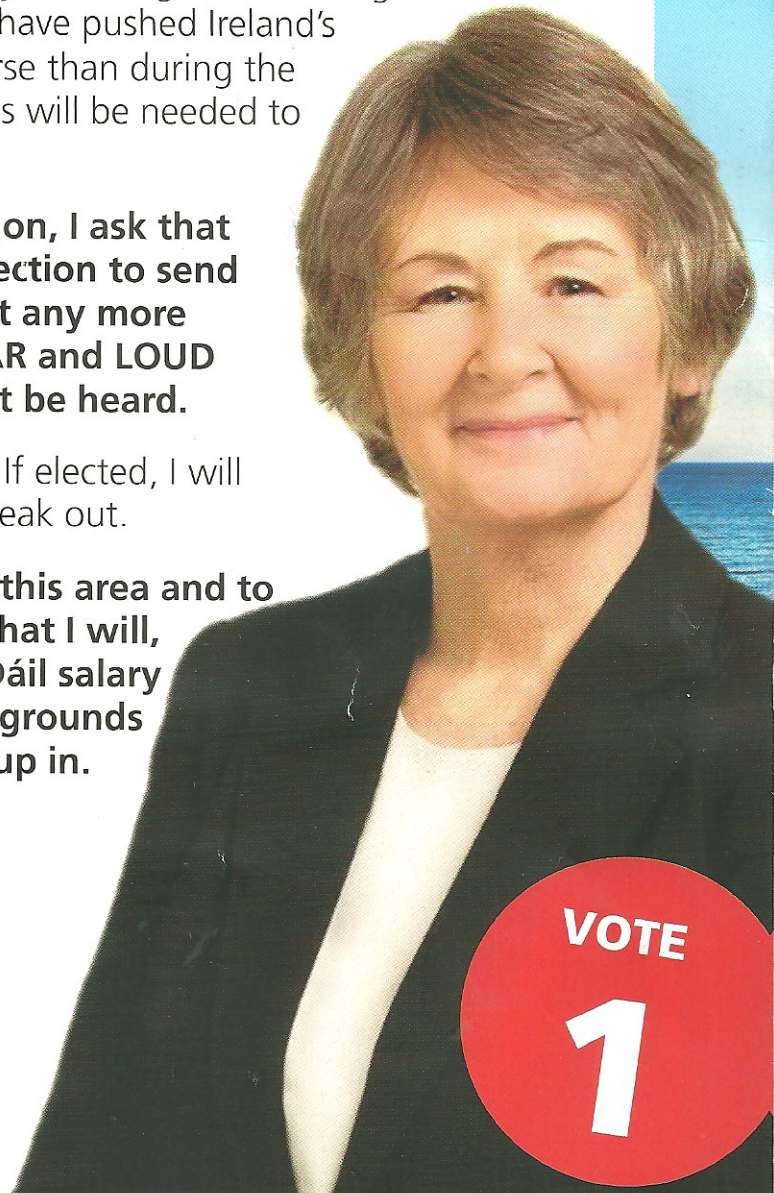

Regardless of your regular political affiliation, I ask that you use your Number 1 vote in this bye-election to send a clear message to the government against any more lockdowns. A vote for me will send a CLEAR and LOUD message that COMMON SENSE voices must be heard.

I feel very strongly and deeply about this issue. If elected, I will be a voice of sanity and will not be afraid to speak out.

To show my commitment to the people of this area and to improving our quality of life, I guarantee that I will, if elected, donate ALL (100%) of my net Dáil salary towards establishing new community playgrounds and a clean environment for kids to grow up in.

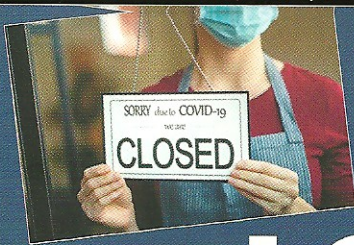

Jacqui

**Jacqui
Gilbourne**

SPEAKING UP FOR COMMON SENSE

NO MORE LOCKDOWNS!

LOOK AT THE FACTS THAT RTE DON'T REPORT

31,765 people died in 2020 of all causes. This is the white area at the top of the bar chart on the left. This represents just **0.6%** of the total population.

Most of these deaths were from

- cancer (9356)
- heart diseases (8744)
- accidents and suicides (1250).

COVID Deaths in 2020

According to the CSO, only **0.04%** (1672) of people died with COVID. Most of these people were elderly with serious underlying health conditions.

This is represented by a barely visible thin **red line** at the very top of the bar chart.

For this relatively very small number of 'COVID-deaths' the country has suffered unnecessary lockdowns, **freedoms removed**, the **economy wrecked**, hundreds of thousands of **incomes and jobs devastated**, billions added to the national debt, **hospital waiting lists** have been allowed to skyrocket and the **mental health** of hundreds of thousands of people severely damaged.

THIS IS MADNESS!

Births: 55,959 people were born in Ireland in 2020. This is the green area and represents 1.2% of the total population

Ireland has been subjected to the **strictest COVID lockdown in the EU** and one of the strictest in the world.

The FG-FF-GP government is now hinting at MORE lockdowns in the coming Autumn and Winter. This would be disastrous and an insult to common sense.

The serious negative effects of lockdowns are being ignored.

Lockdowns...

- **Weaken the immune systems** and make people more vulnerable to illness.
- **Destroy jobs, force many small businesses to close** and wreck the economy.
- **Cost taxpayers billions** in extra debt and higher taxes.
- **Discourage the sick visiting doctors** & delay seriously ill people getting vital treatment.
- **Increase social isolation**, loneliness, depression & suicide.

"We in the World Health Organization DO NOT advocate lockdowns as the primary means of control of this virus."

*Dr David Nabarro
WHO Special Envoy on COVID-19*

Lockdowns are a hugely damaging over-reaction. **Countries like Sweden did not lock down.** Instead, we should protect the elderly and open up society. Let Ireland live again.

**A vote for Jacqui will send a loud message:
NO MORE LOCKDOWNS!**

Total Population of the Republic of Ireland in 2020

5 million people were living in Ireland in 2020

They are represented by the full height of this coloured bar chart.

4 ACTIONS FOR A FAIRER TAX SYSTEM

1. **PERSONAL TAXATION.** Increase the income tax 20% band by €2000 per annum until it reaches €50,000.
2. **REVERSE TAX INDIVIDUALISATION** which unfairly discriminates against 250,000 families where only one spouse / partner is working.
3. **INHERITANCE TAX.** Increase the threshold for transfers between parents and children to €500,000. Increase the threshold for transfers between grandparents and grandchildren to €100,000.
4. **VAT.** Extend the 9% VAT rate for the hospitality sector by 2 years to help reverse the damage caused by lockdowns

SCRAP THE LICENCE FEE

RTE rakes in a massive

€189 million

per annum in licence fees. In return it provides biased news, non-stop liberal propaganda and very poor value for money.

ENOUGH IS ENOUGH

The RTE Tax / Licence Fee needs to be replaced with a

MEDIA FAIRNESS FUND available to ALL broadcasters, including local radio.

PROTECTING PARENTS' CONSTITUTIONAL RIGHTS: BIOLOGY NOT IDEOLOGY

WHAT'S HAPPENING?

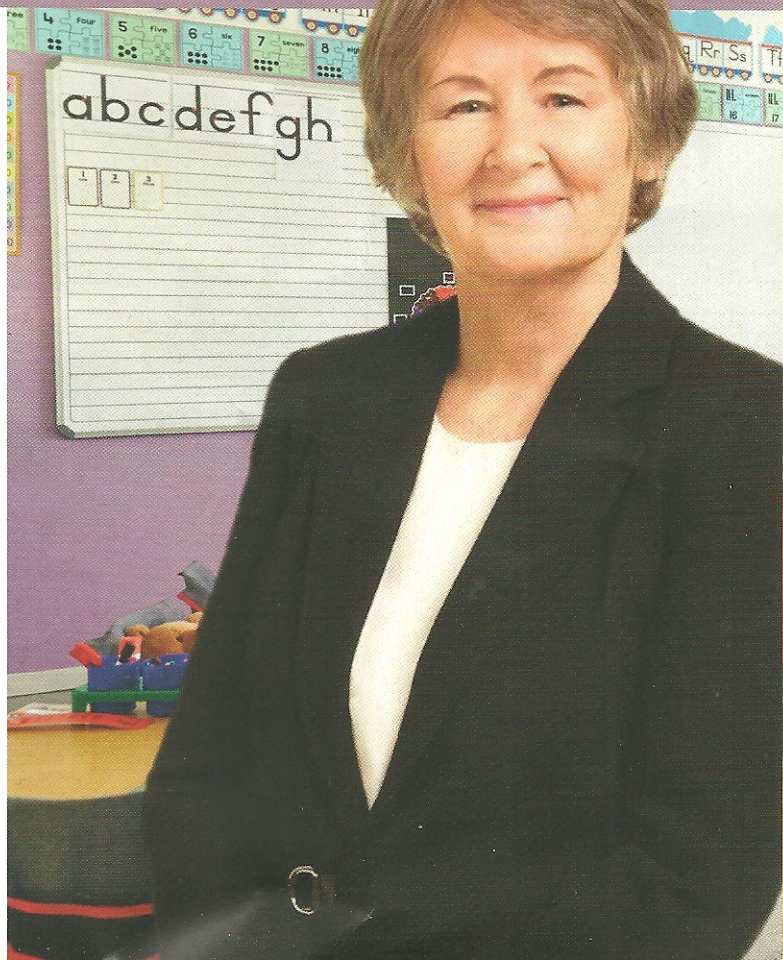

The National Council for Curriculum and Assessment (NCCA) are bringing forward an advanced and graphic Relationship and Sexual Education (RSE) curriculum in Primary Schools. There has been very little meaningful consultation with parents across the country in relation to these radical changes.

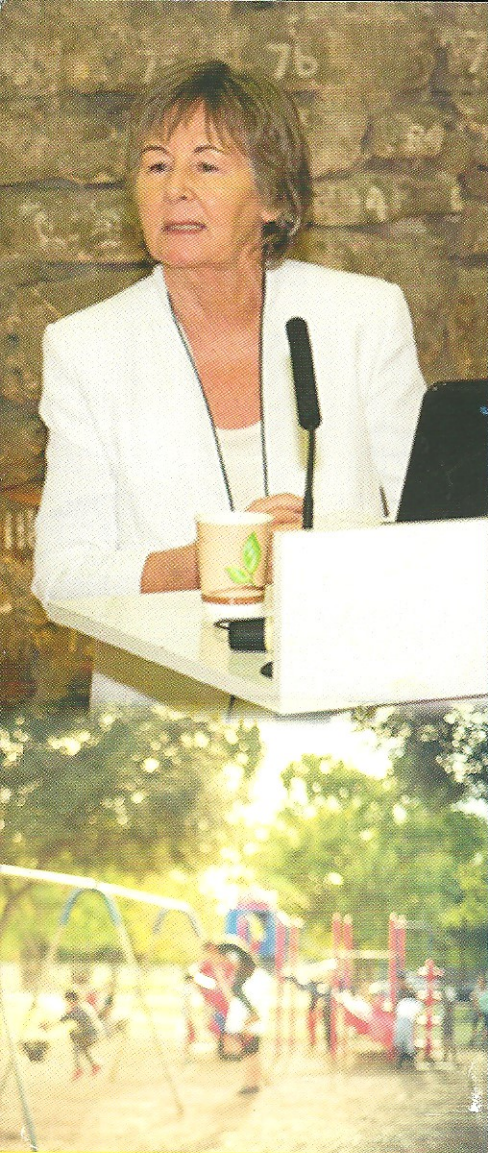

WHY IS THIS DANGEROUS?

The RSE is moving beyond basic personal health and the facts of life. What was once simply about keeping children safe has become an indoctrination process whereby children are subjected to a gender ideology that isn't relevant to their everyday lives.

WHAT NEEDS TO BE DONE?

Parents need a political representative who is going to give them back control of what their children learn about such an important subject during their most crucial formative years. Jacqui Gilbourne will be that representative.

About Jacqui

- Lives in the constituency in the South Inner City
- Professional nursing, psychology and community work background
- Very active in the local community for many years
- Jacqui is passionate about human politics, where the well-being of people is to the fore. She values family, community and country.
- Campaigner for free speech, equality of opportunity, real democracy and a social cohesion that unites all, across class, colour and creed.
- Active campaigner for the right-to-life of the unborn.
- Actively involved in neighbourhood street cleaning to help build a sense of community and create a safe and clean local environment.
- **IF ELECTED, JACQUI WILL DONATE 100% OF HER DÁIL SALARY TOWARDS NEW COMMUNITY PLAYGROUNDS AND A CLEAN ENVIRONMENT FOR CHILDREN TO GROW UP IN.**

What people say about Jacqui

'Jacqui has more courage and convictions than most of the Dáil put together'.

'She's the only local rep who has had the courage and common sense to speak out against lockdowns and the massive harm they have done to our country.'

'While I don't agree with her on everything, I do admire her honesty and gutsy, common sense approach.'

'She's a great local rep. She genuinely cares about people—especially children. That counts for a lot.'

'She's the kindest woman in politics'

Jacqui's Awake, not Woke! — a real breath of fresh air!'
